PROFESSIONAL SUMMARY

Final-year Software Engineering student with strong training in software development, enterprise systems, and IT operations. Experienced in developing web applications using Java Spring Boot and React, with additional skills in Python, SQL, and networking. Internship experience at Rwanda Revenue Authority strengthened my ability to build secure, reliable, and scalable systems that support critical institutional operations. Highly motivated to grow in dynamic environments where technology, innovation, and operational excellence intersect.

EDUCATION

Bachelor of Science in Software Engineering – Adventist University of Central Africa (AUCA)
GPA: 3.5 / 4.0 | June 2022 – Present

PROFESSIONAL EXPERIENCE

Academic Internship – Rwanda Revenue Authority (RRA) | March – May 2025

- Contributed to development and maintenance of enterprise web applications using Spring Boot and React.
- Implemented RESTful APIs and integrated frontend and backend services.
- Assisted in troubleshooting system issues and improving application performance.
- Participated in system testing, debugging, and deployment activities.
- Collaborated with technical teams to ensure reliability and security of operational systems.

PROJECTS

Online Quiz Application – Developed a role-based system with authentication and analytics dashboards to track user performance.

Aguka Platform – Designed user-friendly interfaces to improve collaboration and accessibility.

Police Examination Process System (PL/SQL) – Built a database-driven system to manage driving license examination processes.

TECHNICAL SKILLS

Programming: Java (Spring Boot), Python, PL/SQL

Tools & Platforms: Git/GitHub, Docker (basic), CI/CD, Microsoft Office

IT Operations: Networking fundamentals, Linux basics, system troubleshooting

Data: SQL, Excel (pivot tables, formulas), dashboards, basic Power BI

CERTIFICATIONS & TRAINING

- Cisco Networking Essentials – Introduction to Network Operations (2024)

- NETOPS 2 – Networking Operations and Systems Management
- UI/UX Design Training
- Solvit Africa – Code to Connect Program (UI/UX, AI fundamentals, prompt engineering)

LANGUAGES

English (Fluent) | Kinyarwanda (Native) | French (Basic)
